

Information for Ukrainian CF-families in Germany

1) Arriving

The Federal Ministry of the Interior and Community provides a lot of information for arriving refugees in different languages, including Ukrainian, Russian and English.

The page gives information about medical care and accommodation in Germany. It also provides basic insights into employment, studying / education and also provides information about legal questions regarding asylum and immigration.

High-quality information specifically targeted at CF can be obtained from the National German CF foundation. The page provides information in Ukrainian, Russian and Polish.

The Facebook support group of DCFH (German CF help) was founded by families of Ukrainian refugees with CF childs. It is aimed to exchange information in Ukrainian, Russian, English and German and to strengthen the cooperation between families. People from Germany who want to offer support for those families are also heartly welcome! People who are interested in joining the group can get in touch via E-Mail: info@dcfh.de

This group offers information for all refugees from Ukraine, not only those with CF/ CF childs:
